This is part 1

This file is what a user will see when they select your template. Make sure that you update the fields in the yaml header. In particular you will want to update the `output` field to whatever format your template requires.

This is a good place to demonstrate special features that your template provides. Ideally it should knit out-of-the-box, or at least contain clear instructions as to what needs changing. Finally, be sure to remove this message! This file is what a user will see when they select your template. Make sure that you update the fields in the yaml header. "It is further proof that refugee movements and the broader issue of migration of populations ... is a global challenge that cannot be confined to a few countries."

— Filippo Grandi
